AGENT Q

**World's First AI Agent Phone
For Entrepreneurs**

Encased in Himalayan crocodile leather, adorned with solid gold and 2,600 hand-set natural diamonds weighing a total of 12 carats, this extraordinary creation transcends technology to become a collectible masterpiece. Each element is meticulously crafted, from the rare hand-dyed leather gradient to the Swiss-engineered precision hinge, reflecting the union of British heritage, artisanal mastery, and cognitive intelligence.

Beneath this artistry lies the VAOS (Vertu Agent Operating System), built on Falcon Cognitive Architecture. Unlike traditional smartphones that rely on passive apps, Agent Q — the world's first AI Agent Phone — perceives, plans, and executes, transforming human intent into action. It's not a phone that waits for instructions, but one that thinks alongside you.

THE WHITE FALCON

There is a legend that commands
the sky
The Gyrfalcon.
Power, made pure.

Born in white, the rarest of them
all.

Too rare for the many
kept only for thrones.

In its wings, we found not just
flight, but dominion.
A silence sharper than thunder.
A will that bends no path but its
own.

The spirit of VERTU.

AIGS: REINVENTING CONCIERGE WITH AI

Ten lines of code unlock a world without limits, **no apps, no downloads**, just seamless action. Your phone evolves from a device that connects you into an intelligent agent that acts for you.

Backed by **23 years of elite concierge heritage**, AIGS merges AI foresight with a human touch. With over 200 agents serving both work and life, it anticipates your needs often before you even ask.

FROM APPS TO AGENTS

For those who lead companies, create art, and move capital. Time is the ultimate luxury.

VERTU builds the phone for entrepreneurs who think, plan, and act.

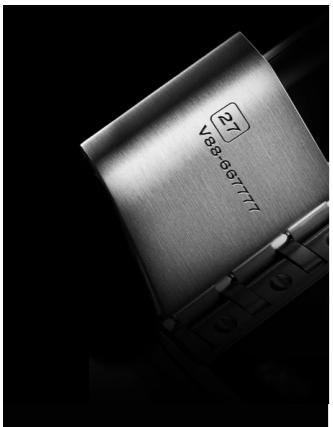

Apps distract. Agent Q delivers.

Built on VAOS, AIGS, and VPS. Say it, type it, and it's done.

Book a flight. Draft a brief. Plan your day.

All done securely, privately, and intelligently, right on your device.

From connection to delivery. From assistant to agent.

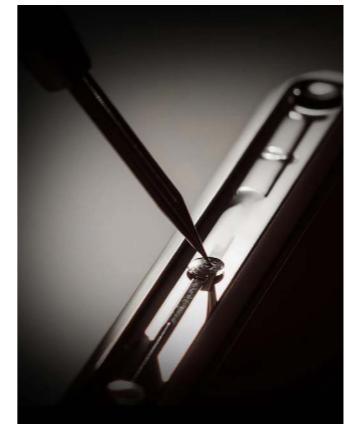

Falcon-Wing Elegance

Perfectly poised and masterfully engineered, the Swiss hinge glides with precision unveiling a hidden monogram, a whisper of distinction reserved for the refined.

Noble & Warm Leather

Sculpted in a seamless U-shaped form, the leather exudes quiet nobility supple, warm, and impeccably tailored to perfection.

Master Assembly

Crafted with unwavering precision, over 320 stainless steel components unite in perfect harmony a testament to British sophistication and Swiss mechanical artistry.

Perfection Within

Crafted with unwavering precision, over 320 stainless steel components unite in perfect harmony a testament to British sophistication and Swiss mechanical artistry.

Ceramic Pillow

Forged at 1200°C, the ceramic attains a jade-like warmth — smooth to the touch, timeless in its elegance, and unwavering in its strength.

The Humanist Lens — To See, or to Feel

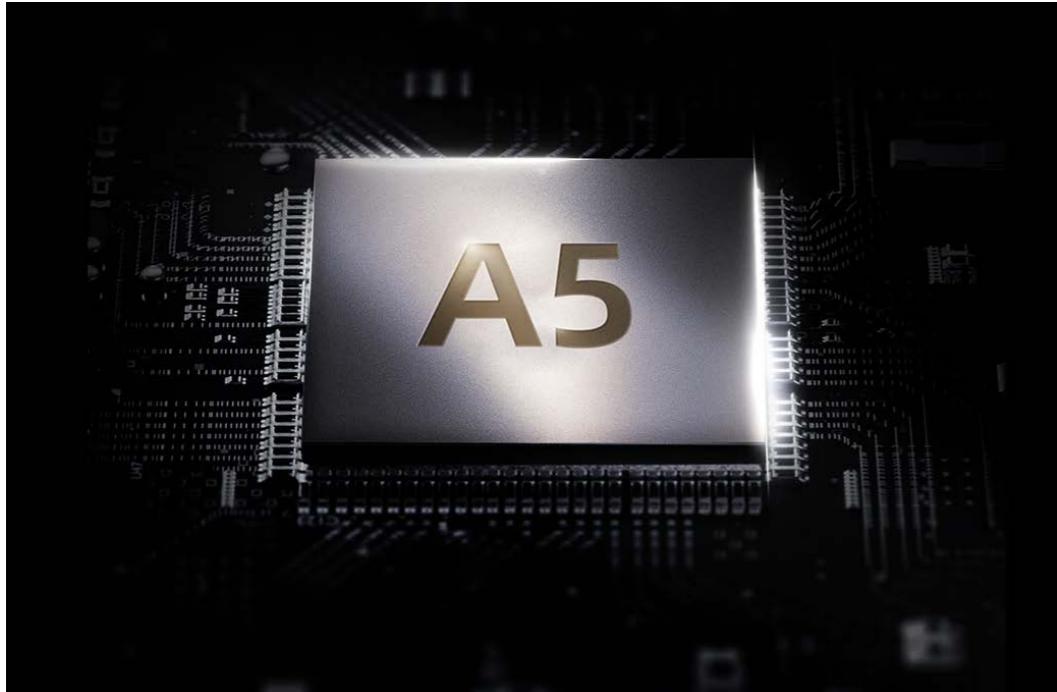

With a 35 mm focal length and true mechanical zoom, it captures not merely what you see, but what you feel — emotion, framed in precision.

A Vision Beyond Sight

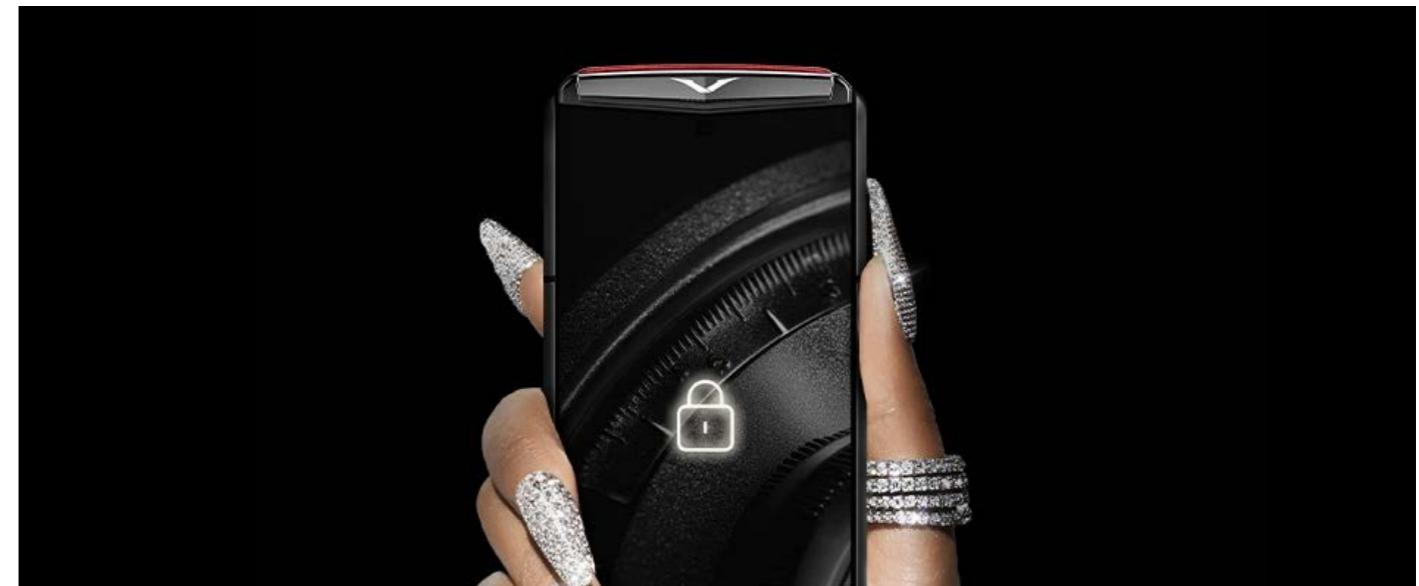

50MP main, 64MP telephoto, and 50MP ultra-wide — united through the world's first true mechanical zoom lens, engineered with Swiss precision for a flawlessly human perspective.

Hardware encryption chip

hardware-level encryption for complete data isolation

**10tb distributed vault**

SIGNATURE V

HERITAGE

Signature v is the epitome of vertu.
Symbolising the art of conversation,
signature is our flagship handset.
An icon in mobile luxury; providing
complimentary access to our renowned
vertu concierge service through the
press of a ruby key.

Handcrafted heritage

Every signature v is handmade in england. Assembled by a single craftsman and bearing their individual signature only when they are happy it meets our rigorous standards.

**Where Mastery Meets Unrivalled Precision**

Every part of signature v is handcrafted to the most exacting specifications, accuracy usually only seen in luxury watches.

Only our most experienced craftsmen may create signature v, and only after years of learning how to do so.

Exceptional material

Signature v is handcrafted using the finest rare materials, creating something not only desirable but of unmatched durability and unparalleled quality.

**A Decade of Unrivalled Precision**

Signature v is the result of a decade of knowledge, passion and expertise, dedicated to creating something truly unique. There are over 25 types of screw in each signature v, some so small that just four human hairs fit into the thread.

Every surface of signature v is polished to a perfect finish; a process so complex that it takes two days to complete the ceramic pillow alone.

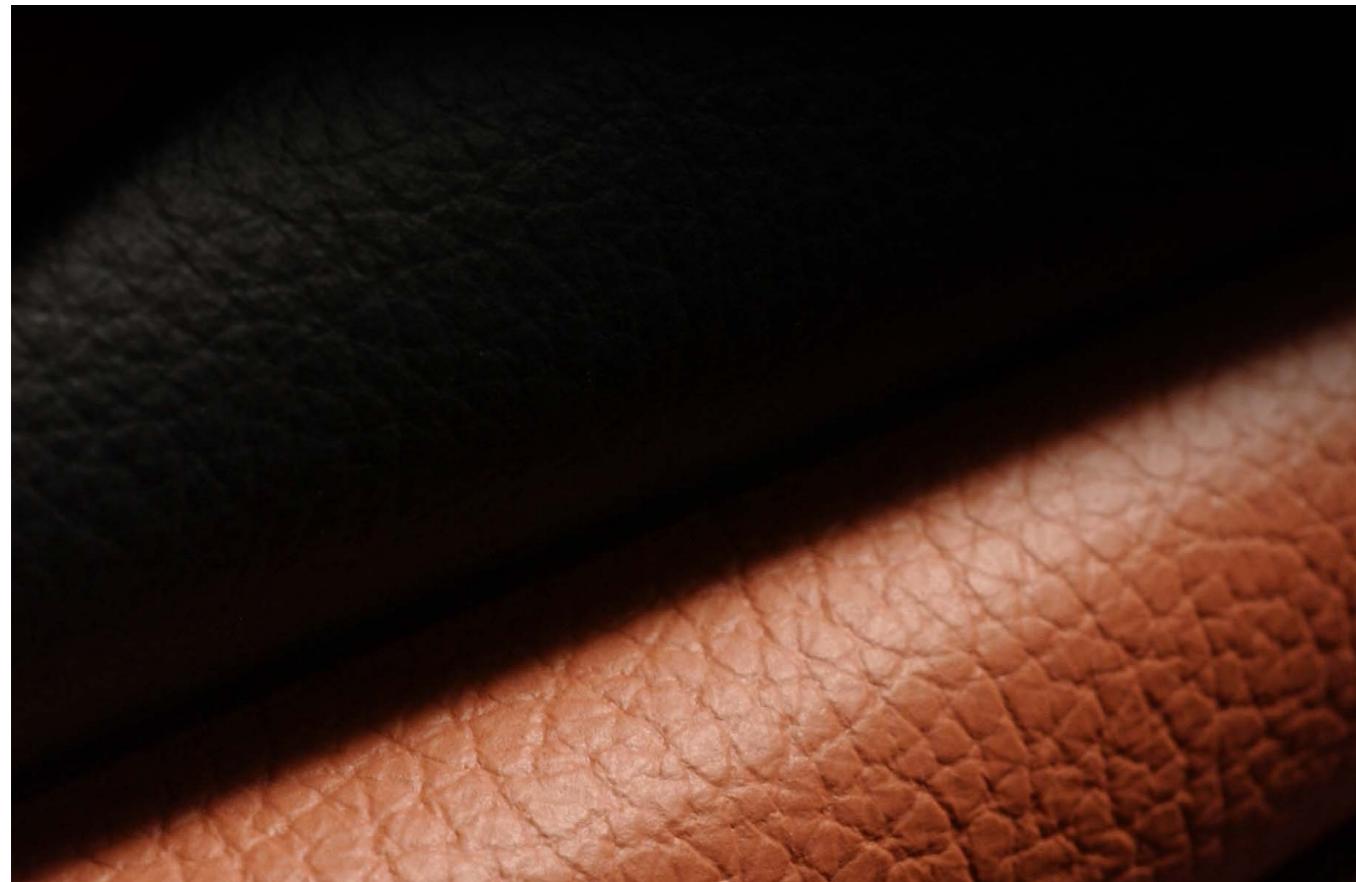

Using 83 carats of sapphire crystal to create the stunning seven-piece signature v face, the «sea of sapphire» takes more than two weeks to produce in a 2000°C furnace. Almost impossible to scratch, it is so hard it must be cut, ground and polished with diamond-tipped tools.

Beautiful as well as functional, the hot-swap sim drawer is engraved

with a unique vertu pattern, much like a piece of jewellery. Made from solid gold and stamped with the vertu, the hot-swap sim drawer allows you to change sim cards without powering off your device. Our patented ruby key pad contains 4.75 carats of solid ruby bearings, each cut and set in its exact place like a jewel. The finest leather is selected for

the perfect grip and hand-finished for grain, structure and feel. The leather on the battery cover is carefully matched to ensure the grain is always consistent.

Uncompromising toughness

Signature v is composed of the strongest materials, handcrafted to withstand the toughest possible conditions.

Strength and Elegance in Every Detail

As with every vertu your signature v is protected by a screen of scratch-resistant sapphire, the second-hardest natural material after diamond.

Constructed of resilient ceramic, similar to the material used in the disc brakes of sports cars, the signature v pillow earpiece is incredibly tough while smooth and comfortable.

Handcrafted heritage

As is appropriate for a masterpiece of handmade craftsmanship, signature v comes with exclusive ring tones and alert tones. Created for vertu by renowned composers and performed by the world-famous london symphony orchestra these exclusive sounds are a distinct expression of your individuality.

**Butler service**

Through the ruby key on the side of the signature v, you can easily enjoy 7x24-hour one-on-one British butler service. Vertu will provide extremely wise choices for you rationally. Thus, you can enjoy the world freely despite of busy hours.

**Signature V Collection**

An unmistakable and timeless collection designed for the pleasure of conversation, signature v is available in a variety of elegant editions.

AURA RING

WEAR YOUR AURA

Aura is not merely worn, it is experienced. Crafted with rare precision and guided by invisible intelligence, this crystal ring unveils what lies beneath the surface: your health, your rhythm, your quiet power. From sleep to heart, breath to balance, Aura transforms data into grace, and technology into something beautifully human. A new era of wellbeing, seen through clarity, shaped by design.

THE ART OF INVISIBLE INTELLIGENCE

Effortless Health Awareness

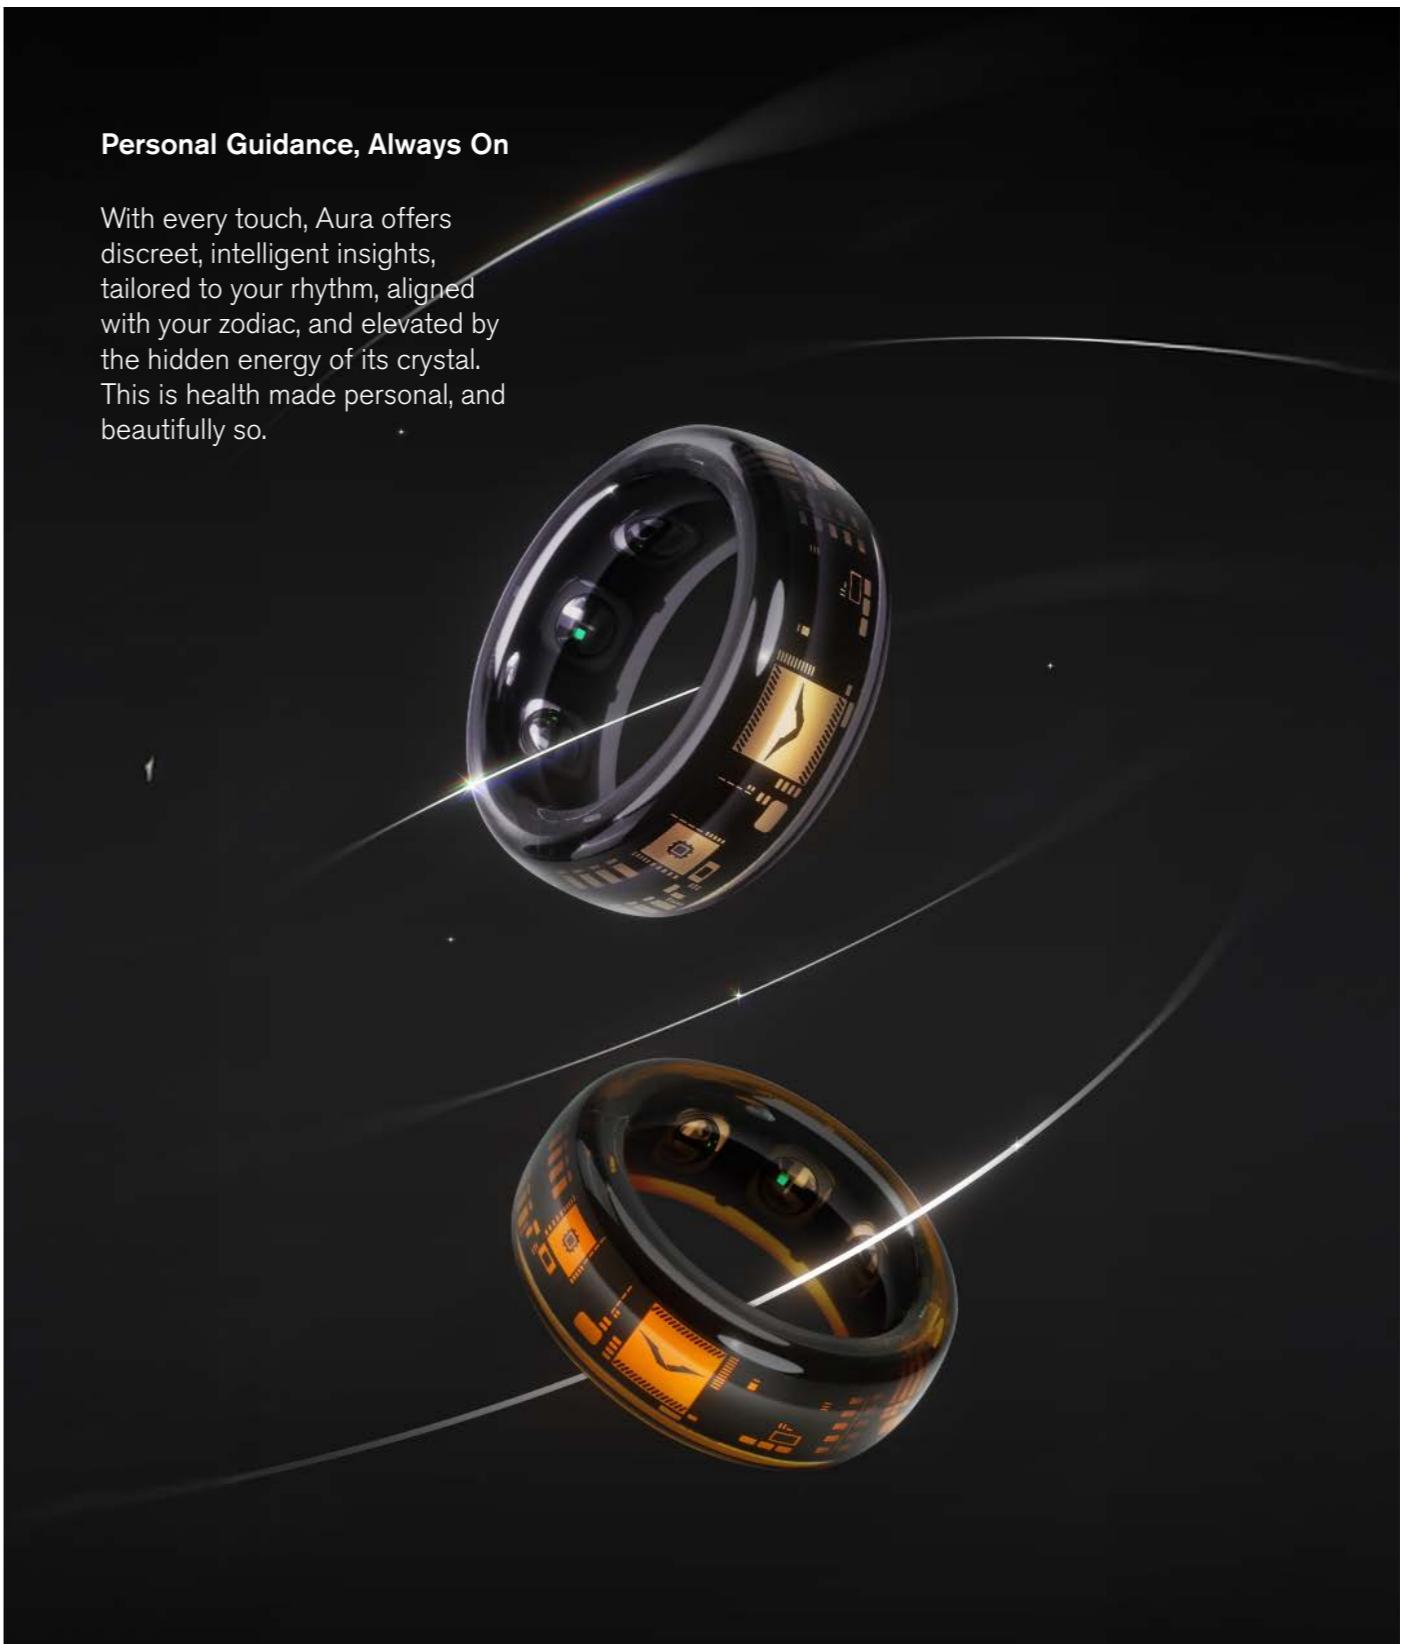

Aura unveils what the eye cannot see, your heart, sleep, breath, and balance, with seamless precision. There are no distractions, no buttons, only elegant clarity that flows quietly with your life.

Design Beyond the Visible

Sculpted from crystal composite, each ring captures light and meaning. Crafted in 20 meticulous steps, Aura is shaped to become a second skin, invisible in weight, yet unforgettable in presence.

Personal Guidance, Always On

With every touch, Aura offers discreet, intelligent insights, tailored to your rhythm, aligned with your zodiac, and elevated by the hidden energy of its crystal. This is health made personal, and beautifully so.

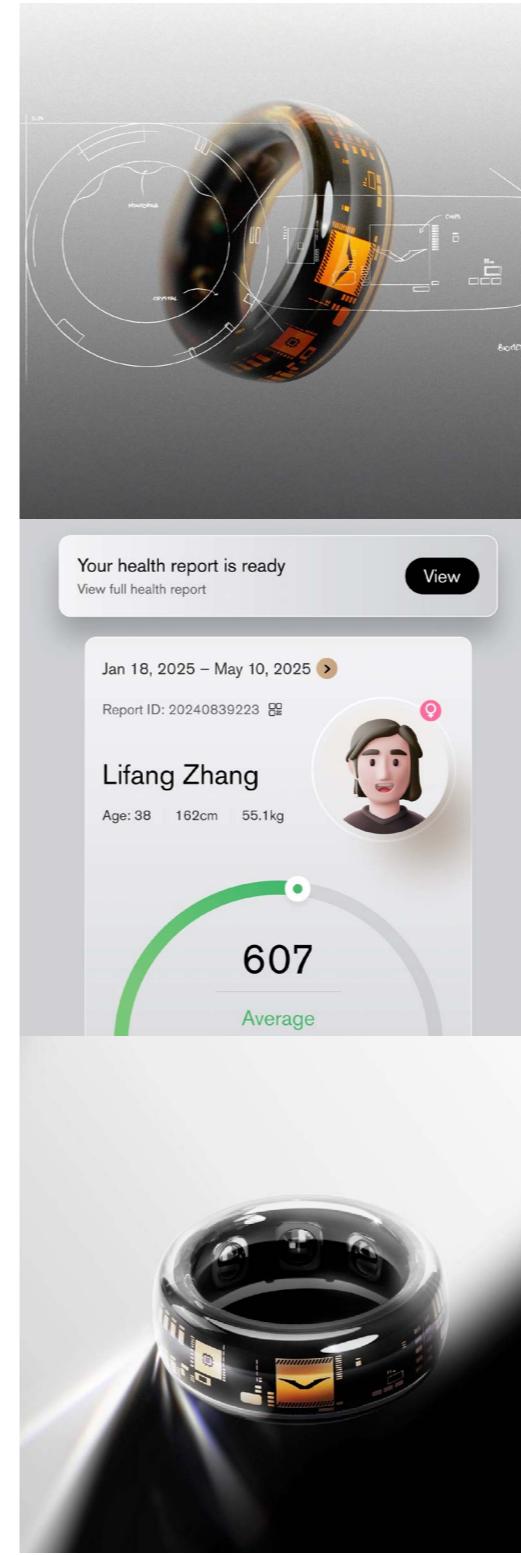

Nano-Sensor Intelligence

At the heart of Aura lies a next-generation nano-sensor chip, seamlessly embedded within its crystal core. Engineered for precision, it silently captures vital signals, transforming invisible rhythms into meaningful insight. Hidden from view, yet always aware, it's intelligence made elegant.

Biometric Harmony

Aura is designed to wear like it was born with you. Its biometric form molds to the natural curvature of your hand, ensuring optimal contact without pressure. It's not just comfort, it's connection, where form meets function in perfect, invisible alignment.

Personal Health Concierge

Aura offers more than metrics, it offers guidance. With real-time health analysis and tailored recommendations, it becomes your discreet wellness concierge. Always present, never intrusive, it intuitively supports your daily rhythm, turning complex data into simple, elegant clarity.

Design Beyond Time

Aura's design is a study in timeless minimalism. Sculpted from refined materials and polished by hand, it blends modern craftsmanship with quiet sophistication. Every curve, every surface, is purposeful, where beauty serves function, and technology disappears into form.

AI DIAMOND RING

RING FOR LIFE

VERTU is committed to bringing the future to you. Innovation is in our DNA and passion is our driving force. VERTU is the first brand to dare to combine gold and carbon fiber in the same phone. This represents a fusion of traditional, modern and groundbreaking materials, a combination of craftsmanship and cutting-edge technology. VERTU has achieved a perfect symbiosis between functionality, architecture and design.

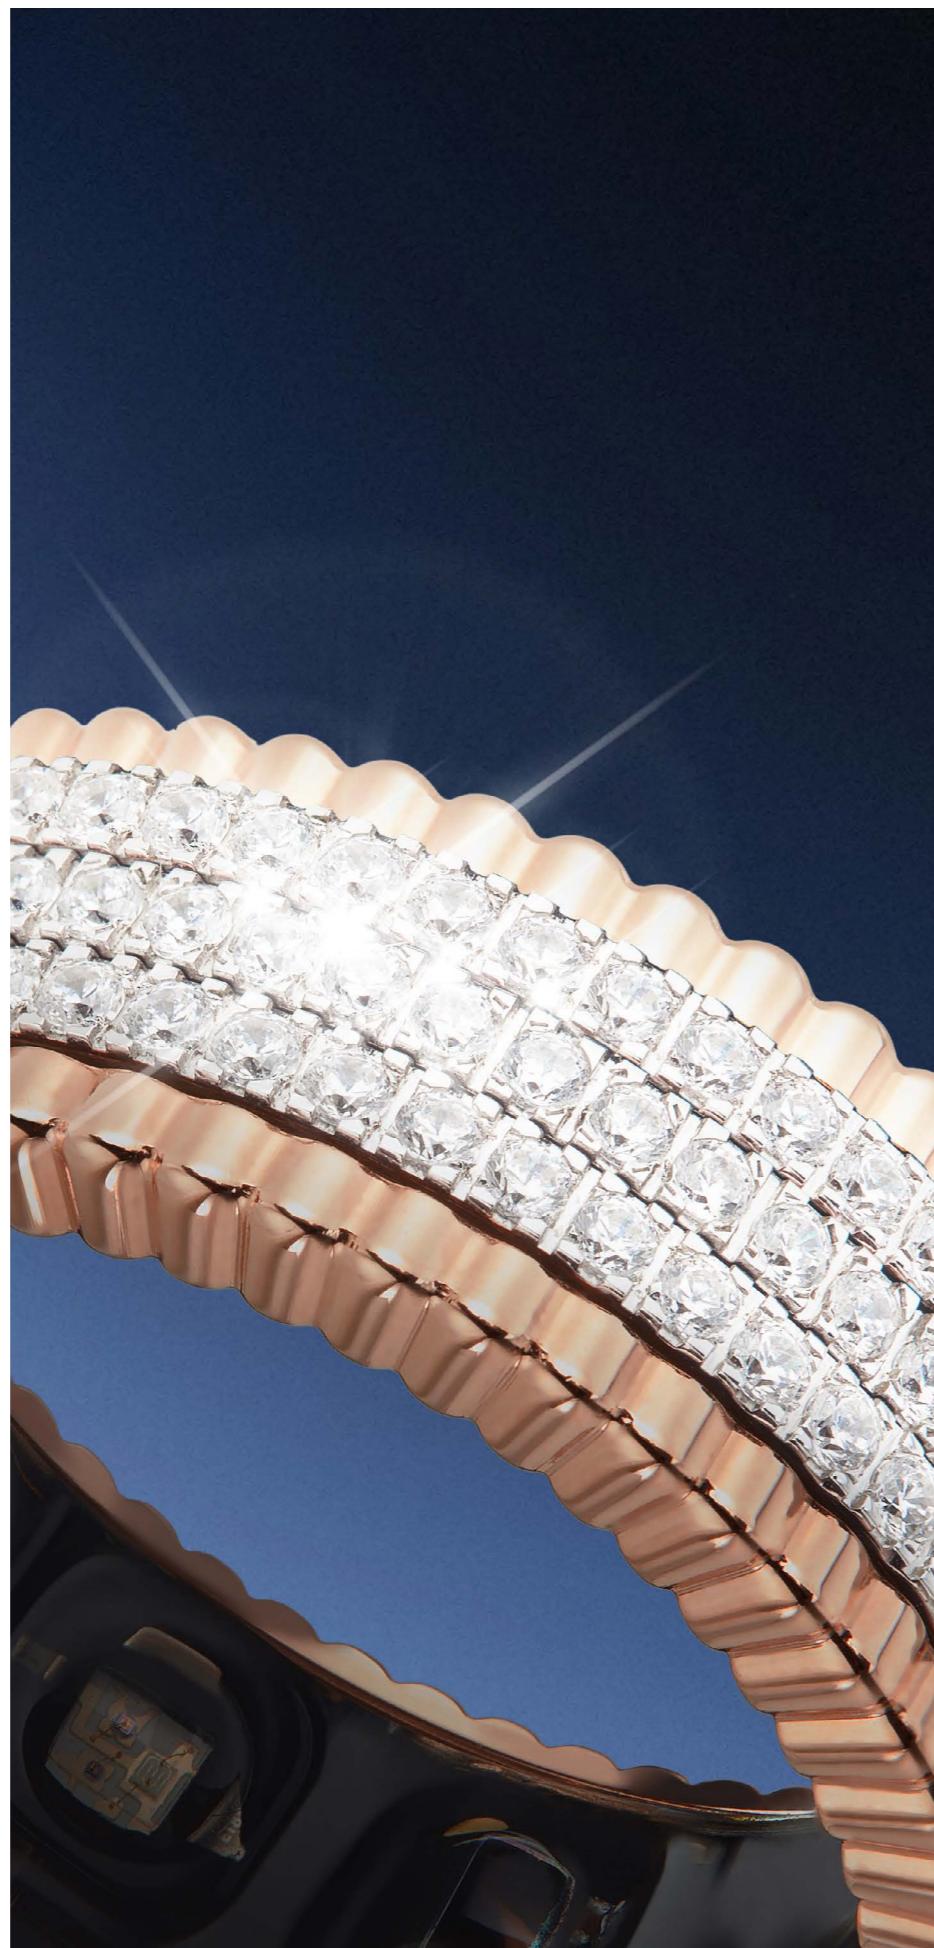

Looking to the future, once again, VERTU is re-imagining the jewelry industry, combining innovation and tradition, artificial intelligence and expert craftsmanship, meta-universes and manufactured beauty. From fundamental research to the development of innovative materials, data scientists and engineers work in perfect synergy under one roof to create AI jewelry that continues to push the boundaries of technology and aesthetics.

Fortune Possession

The pivoting design allows the double-layered ring to rotate freely.

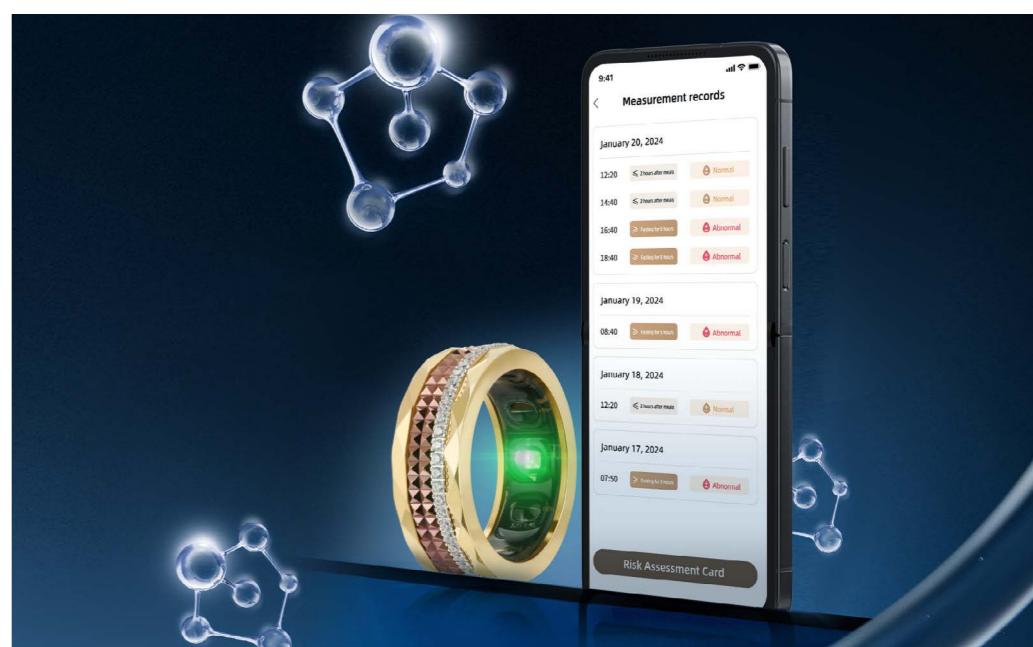

The diamonds are elegant and sparkling, and the rotation creates a fire of good luck.

**Easy to Combine**

Removable design creates unlimited combinations. A variety of precious metal bezels to choose from, so you can mix and match according to your mood, occasion or outfit.

**Non-invasive blood glucose detection**

Built-in high-precision PPG sensor chip, non-invasive blood glucose detection

AI Health Guard

7*24 round-the-clock sensorless heart rate monitoring, full-scene real-time sleep guarding
Blood pressure, blood oxygen, maximum oxygen uptake, pressure value monitoring and multi-exercise mode recording.

Classic design

Grosgrain Linear Engraving pays homage to the roots of the VERTU brand of luxury cell phones
The diamond circle symbolizes the eternity and constancy of love.
Concentric circles reflect the harmony and unity of romantic love.

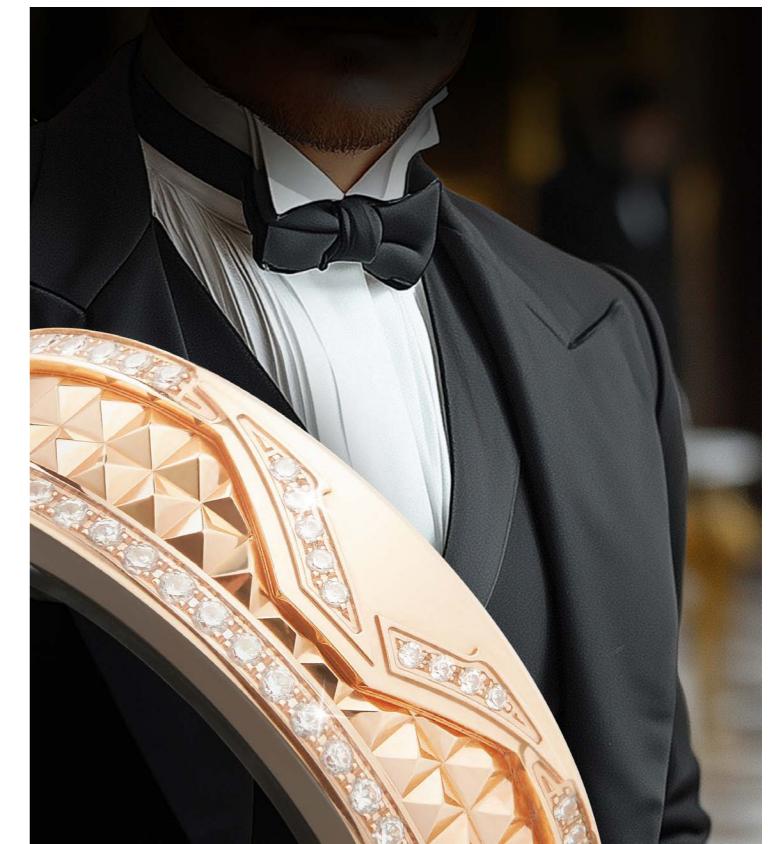

Comfortable and waterproof

6 ring sizes, there is always one for you
5ATM waterproof can be immersed in water depths up to 1.5 meters to 2 meters, no need to remove it for water-related scenarios such as washing, showering, swimming, etc.

METASELF, Health Protection

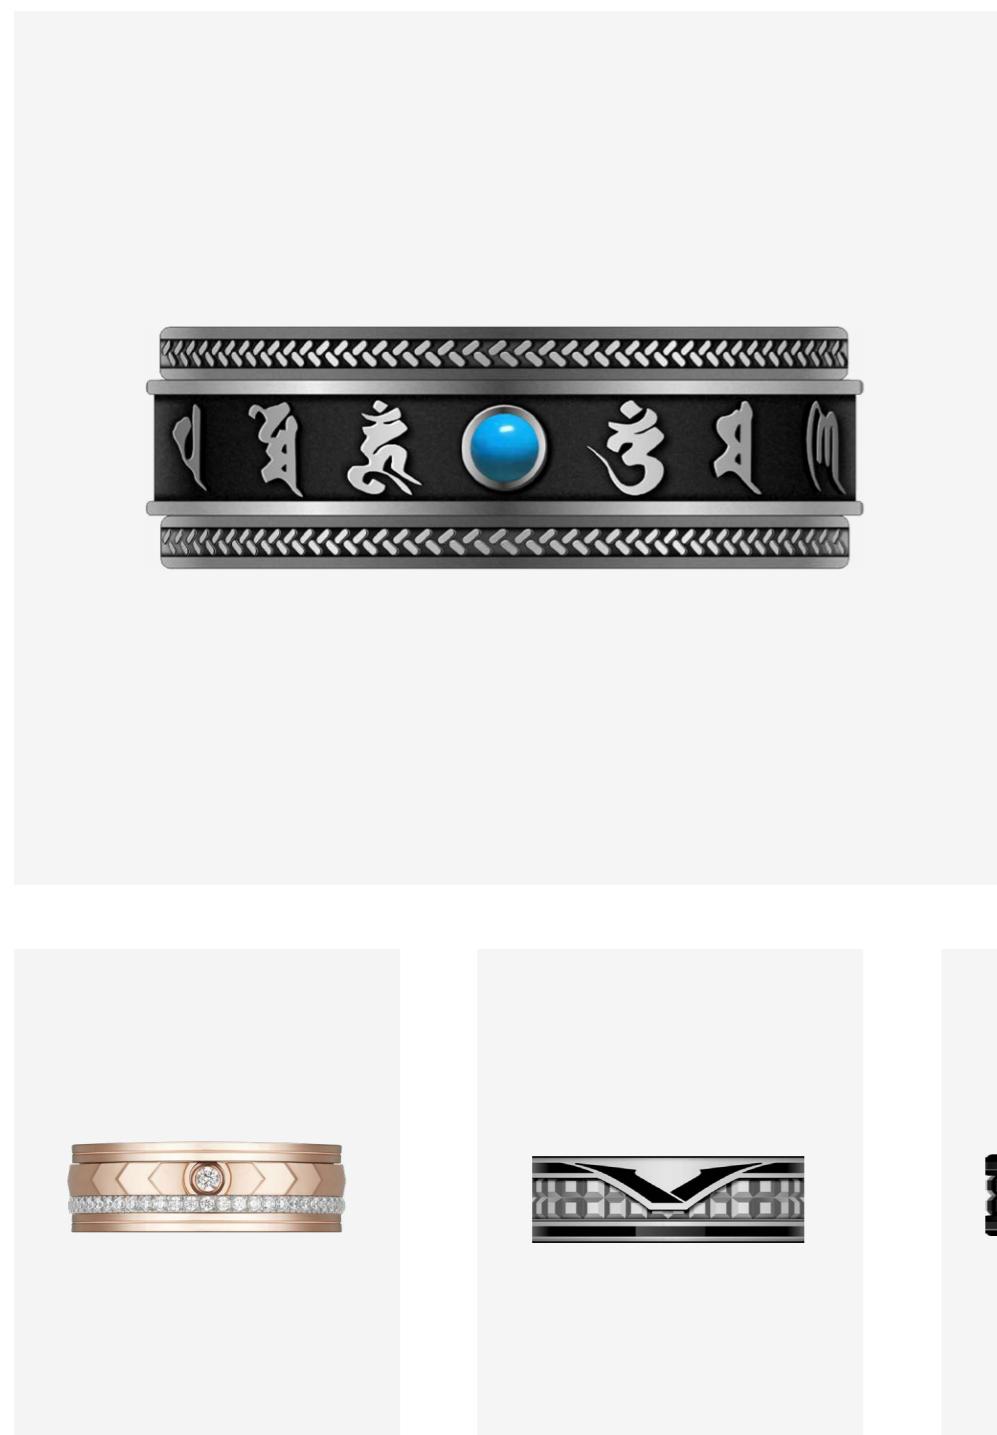

Real-time health tracking: Real-time tracking of the user's health status, and timely alerts and warnings when abnormalities are detected, once the data is out of the normal range, the system will immediately send a notification to protect the family's health.

VERTU PHANTOM

THE PORTABLE LEGACY OF SOUND.

In an era of fleeting trends, the Vertu Phantom emerges as a profound homage to enduring craftsmanship and the golden age of audio. Drawing inspiration from the beloved aesthetics of the classic vinyl player, this is not merely an earbud; it is a meticulously sculpted masterpiece, a portable sound sculpture that marries historical elegance with pioneering technology. We invite you to transcend conventional listening and rediscover sound, redefined for the modern connoisseur.

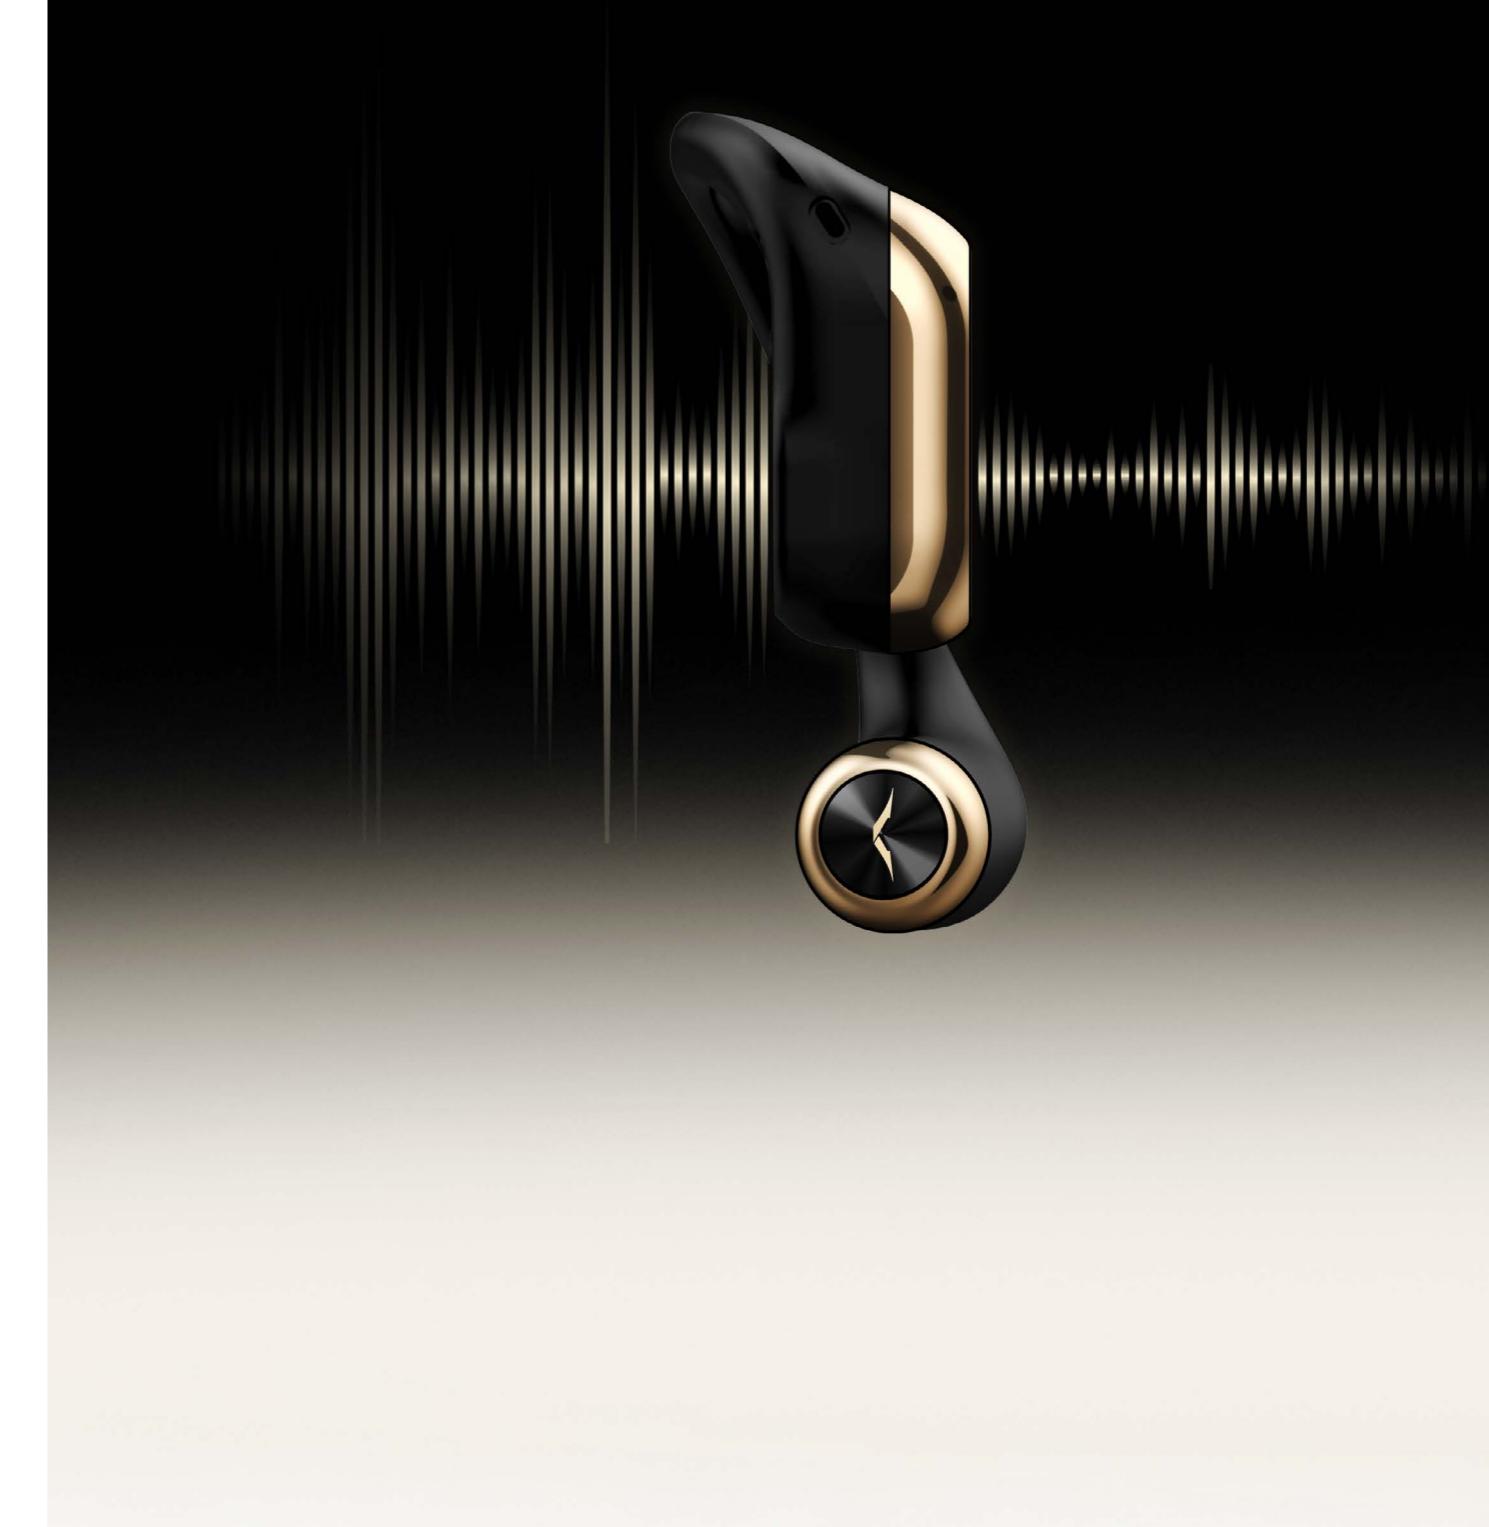

A Symphony of
Natural Beauty & Precision

Each Phantom is a unique narrative, sculpted from exquisite Wenge and rich Ebony. Every element, from the refined aluminium CD-pattern finish to the polished alloy pivot, whispers 'old money' elegance and unparalleled attention to detail.

Hear It All: Your World & Your Music

The 12mm wool-paper drivers and exclusive LISO Spatial Audio Algorithm recreate the authentic, expansive soundstage of a live performance or a classic vinyl session. Pure, natural, and utterly captivating.

Connected & Understood

Break down barriers with the Phantom's integrated AI. Effortlessly translate conversations, transcribe meetings with clarity, and manage your day with an intelligent voice assistant. Your indispensable global companion.

**Power Through Your Day**

Designed for the rigours of modern life, the Phantom offers up to 10 hours of continuous listening, extending to a remarkable 25 hours with its elegant charging case.

Listen Limitlessly, Feel Nothing.

At a mere 8.8 grams, the Phantom redefines open-ear comfort. Memory titanium wire ear hooks and a liquid silicone finish ensure a secure, pressure-free fit. Listen all day.

Fingerprint unlocking, intelligent security

Intelligent security with technology on your side
Personalized fingerprint entry, security and peace of mind
Accurate and sensitive opening and closing, easy unlocking with one key.
Anti-lost alarm for better security.

Fortune flame pattern for good luck

Unique nine purple fire pattern
Inspired by the I Ching's hexagrams, it implies supreme fulfillment.
The V-shaped line in the center symbolizes prosperity.

Fine leather, artisanal tanning

Delicate handfeel, breathable
Imported leather source
soft and tough.
Lightly coated surface, presenting a unique texture.

Since its inception, VERTU has been committed to creating individually styled and textured phones, which is why leather is often used extensively in VERTU phones.

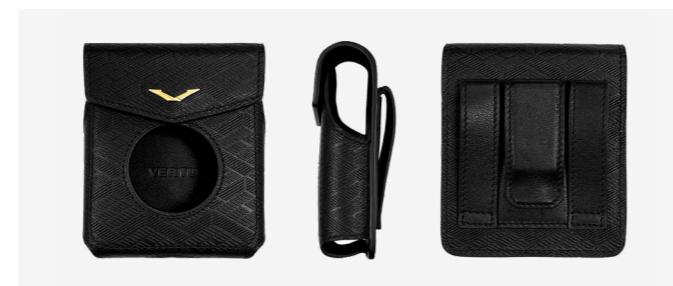

We've gotten used to making leather goods after more than two decades of practice. VERTU wanted to use leather goods as a vehicle to incorporate elements of traditional British royal art and culture, combined with VERTU's technological aesthetic, in addition to mobile phones.

To create lifestyle pieces with a very modern and trendy sense of style.

VERTU LIFESTYLE

VERTU adheres to a traditional British lifestyle aesthetic. We believe that the miracle of life is made up of every day, and that sometimes a cup of coffee and a silk scarf is enough to brighten up a dull day.

And to communicate this aesthetic, VERTU has also launched a range of peripheral products, including: bone china coffee mugs, bone china tableware, silk scarves, ties...

Hiding beauty in every detail of your life, beauty is in every moment of your serious life.
